## INDEPENDENT AUDITORS' REPORT

Board of Directors  
Alliance Affiliated Equities Corporation  
Kansas City, Missouri

We have audited the accompanying balance sheets of Alliance Affiliated Equities Corporation (the "Company") as of December 31, 2007 and 2006, and the related statements of operations, stockholder's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and 2006, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information listed in the table of contents is not a required part of the basic financial statements, but is supplementary information required by the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# ALLIANCE AFFILIATED EQUITIES CORPORATION

## NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2007 AND 2006

---

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. Description of Business - Alliance Affiliated Equities Corporation ("the Company") is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of FINRA, formerly the National Association of Securities Dealers (NASD). The Company is a Texas Corporation wholly owned by Mr. David Dyer, an individual, and is headquartered in Kansas City, Missouri.
- b. Revenue Recognition - Fees from commissions and the related costs are recognized in the period in which the commissions are actually received from the sponsor.
- c. Investment Securities - The Company determines the appropriate classification of debt and equity securities at the time of purchase and re-evaluates such designation as of each balance sheet date.  
  
Debt securities are classified as held-to-maturity when the Company has the intent and ability to hold the securities to maturity. Held-to-maturity securities are stated at cost and investment income is included in earnings.  
  
Securities that are not classified as held-to-maturity or trading are classified as available-for-sale. Available-for-sale securities are carried at fair value, with the unrealized holding gains and losses reported as a separate component of stockholder's equity.
- d. Office Equipment - Office equipment is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the corresponding assets.
- e. Advertising Costs - Advertising costs are expensed as incurred.
- f. Income Taxes - Deferred tax liabilities and assets are recognized for the tax effect of differences between the financial statement and tax bases of assets and liabilities. A valuation allowance is established to reduce deferred tax assets if it is more likely than not that a deferred tax asset will not be realized.

### 2. SIGNIFICANCE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### 3. INCOME TAXES

The Company's deferred tax asset, principally related to its net operating loss carryforward, totaled \$23,328 and \$0 at December 31, 2007 and 2006. A corresponding valuation allowance of the same amount was recorded at December 31, 2007.

#### 4.NET CAPITAL REQUIREMENTS

The company is subject to the SEC Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2007 and 2006, the Company had allowable net capital of \$6,171 and \$133,015, which was in excess of its required net capital of \$5,000. The Company's net capital ratio at December 31, 2007 was 1.95 to 1.

#### 5.REQUIRED INFORMATION OMITTED

The Company has no liabilities subordinated to claims of general creditors as of December 31, 2007 and 2006; therefore, the statement of changes in liabilities subordinated to claims of general creditors has been omitted.

The Company does not maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers" and it has not held "physical possession or control" of any securities for customers since operations commenced. Information relating to the possession or control requirements in rule 15c3-3 are also omitted.

#### 6.RELATED PARTY TRANSACTIONS

In 2007 and 2006, service fees of \$1,705,380 and \$2,047,542 were paid to a corporation owned by the Company's sole stockholder.

\* \* \* \* \*

Report on Internal Control Required by SEC Rule 17a-5(g)(1) for a Broker-Dealer  
Claiming an Exemption from SEC Rule 15c3-3

To Directors and Shareholders of  
Alliance Affiliated Equities Corporation

In planning and performing our audit of the financial statements and supplemental schedules of Alliance Affiliated Equities Corporation (the Company), as of and for the year ended December 31, 2007 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(1) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
